Team Role	Engagement Lead	Leader	Co-Leader	Quality Assurance Lead	Communications Lead	Creative/ Design	Tech Lead
School and year	Weymouth High School 2027	Belmont High School 2027	Reading Memorial High School 2026	Shrewsbury High school 2027	Belmont High School 2027	Algonquin High School 2028	Shrewsbury High School 2027

What We'll Cover

The Business Challenge

01

Why ThuWork needs a productized catalog

Our Research

02

What the market told us about bundling & pricing

The Service Ladder

03

A four-stage journey from contact to scale

Pricing Model

04

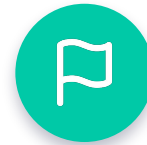

A hybrid approach matched to buyer value

The Service Catalog

05

Four packages, named, priced & ready to sell

Next Steps

06

How ThuWork validates and improves the offer

About ThuWork Digital Solutions

AI-AS-A-SERVICE CONSULTANCY
helping enterprise businesses
harness the power of artificial
intelligence to optimize their tasks

We designed this logo in a T shape to show a creative representation of the first letter of the company and mentor's name. This logo makes the company more personalized.

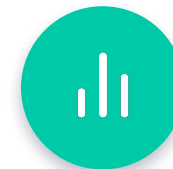

This project translates that capability into a named, priced, and sellable service catalog.

Process Automation

Intelligent Assistants

Predictive Analytics

AI Governance

The Question Every Prospect Asks

For a young AI consultancy, the sales questions are simple:

WHAT

do you sell?

WHAT

does it cost?

WHY

should they buy?

Today's challenge isn't a lack of AI capability. It's the lack of a productized way to communicate that capability to buyers.

Project Scope & Approach

Clarify the target customer

Translate research into one architecture

Recommend a pricing approach

Define the one-pager and website copy

Identify validation steps & metrics

Bundled Offers Beat À La Carte Pricing

A common pattern across consultancy firms: a progression from a low-risk starting point to a larger implementation or scaling investment.

A&I SOLUTIONS

Scout Packages

\$5K – \$10K, up to \$25K — more services and support included at each level.

NEW MATH DATA

Free Proof of Concept

A 2–4 week free PoC lets buyers experience value before any commitment.

RESEARCH FINDING 02

A Staged Journey, Not a Single Sale

Across the market, service progressions follow the client's own journey — from identifying an opportunity, to testing the idea, to implementing the solution, to optimizing it over time.

Uncertainty

Explore

Validate

Implement

Confidence

Scale

Competitors use different numbers of tiers — four is a strategic choice, not an industry rule. The goal is a clear progression matched to how a client's needs actually evolve.

RESEARCH FINDING 03

Pricing & Messaging Must Match Buyer Value

Fixed fees work well for clearly defined projects. Custom quotes work better when scope varies. Monthly fees fit ongoing support — and descriptions should lead with the business problem, not AI buzzwords.

COMPETITOR BENCHMARKS

PLAINPATH

Readiness Assessment	\$2.5K – \$5K
Implementation	\$8K – \$15K
Ongoing Support	\$1.5K – \$4K / mo

LUMIGRID

Uses “starting at” pricing with optional ongoing care plans.

5 QUESTIONS EVERY PACKAGE MUST ANSWER

- 1 Who is it for?
- 2 What problem does it solve?
- 3 How long does it take, and what does it cost?
- 4 What do we deliver?
- 5 What outcome should the client expect?

RECOMMENDATION 01

A Four-Stage, Outcome-Based Service Ladder

Four connected offers that move a client from uncertainty to measurable AI adoption.

01

AI Readiness Assessment

Surface priorities, risks, and the single highest-value use case — the lowest-risk starting point.

02

AI Proof of Concept

Validate one focused use case with a working prototype before a larger commitment.

03

AI Implementation

Take the validated solution into production, tailored to the client's scope and complexity.

04

Managed AI / Optimization

Continuous improvement, governance, and performance management through an ongoing relationship.

RECOMMENDATION 02

Hybrid, Value-Aligned Pricing

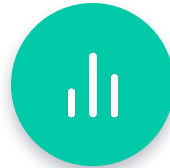

Transparent enough to qualify prospects; flexible enough for custom AI work.

Fixed Price

For standardized, well-scoped entry work.

READINESS ASSESSMENTS & PILOTS

Starting-At / Custom Quote

For work where integrations, data complexity, and deployment scope

IMPLEMENTATION PROJECTS

Monthly Retainer

For ongoing support, monitoring, and optimization.

MANAGED AI / OPTIMIZATION

We recommend against hourly billing as the primary model — AI value isn't always proportional to time spent.

THE OFFER

The Service Catalog

Five connected offers: named, priced, and ready to present.

PACKAGE	PRICE	MAIN PROBLEM SOLVED	IDEAL FOR
Free Discovery Call	\$0	Uncertainty about where to start	Any business exploring AI
Business Automation Starter	\$1,500	Too much manual, repetitive work	Businesses automating first tasks
Growth & Efficiency Package	\$4,000	Inefficient sales & customer service	Businesses ready to grow operations
Business Transformation Package	\$7,000	Operations that don't scale	Businesses ready to scale up
Strategic Operations Partnership	\$499 / month	Need for continuous improvement	Businesses wanting ongoing optimization

Entry Point: Discovery & Starter

FREE FIRST TOUCH

\$0

Free Discovery Call

IDEAL FOR Any business exploring what AI could do for them.

WHAT HAPPENS ON THE CALL

- 30–45 minute consultation
- Identify pain points
- Discuss AI opportunities
- Determine fit
- High-level ROI discussion

TIER 1

\$1,500

Business Automation Starter

IDEAL FOR Businesses looking to automate repetitive tasks and save employee time.

DELIVERABLES

- Business process review
- Workflow automation audit
- 1–2 AI-powered automations
- AI email management system
- Customer inquiry chatbot
- Staff onboarding & training
- 30 days of support

BUSINESS OUTCOME

- Save 5–10+ hours per week
- Reduce repetitive admin work
- Improve response times

Scaling Up: Growth & Transformation

TIER 2

\$4,000

Growth & Efficiency Package

IDEAL FOR Businesses looking to improve operations and generate more revenue.

DELIVERABLES

- Everything in Tier 1, plus:
- Multiple workflow automations
- Lead qualification system
- CRM integration
- Customer service assistant
- KPI dashboard
- Monthly performance report

BUSINESS OUTCOME

- More qualified leads
- Faster customer response times
- Increased employee productivity
- Better business visibility

TIER 3

\$7,000

Business Transformation Package

IDEAL FOR Businesses ready to scale operations.

DELIVERABLES

- End-to-end automation strategy
- Multiple integrated systems
- Custom AI workflows
- Cross-department deployment
- Data integration
- Advanced reporting
- Change management support

BUSINESS OUTCOME

- Significant cost savings
- Scale without proportional hiring
- Company-wide efficiency gains

The Ongoing Relationship

TIER 4 — ONGOING

\$499 / month

Strategic Operations Partnership

IDEAL FOR Businesses that want ongoing optimization and support.

DELIVERABLES

- Monitoring and maintenance
- New automation opportunities
- Continuous optimization
- Quarterly business reviews
- Strategy consulting
- Priority support

BUSINESS OUTCOME

- Continuous improvement
- Long-term operational efficiency
- Consistent ROI from AI investments

WHY THIS TIER MATTERS

This is the Optimization stage of our service ladder, turning a one-time project into a recurring relationship and predictable, compounding revenue for ThuWork.

MANAGED AI / OPTIMIZATION

RECOMMENDATION 03

Design the One-Pager to Be Skimmed

Lead with a clear headline

State the problem and the solution in one line, up front.

Make it skimmable

Bold headings, short bullets, and generous white space.

Show the service progression

Client, problem, deliverables, timeline & price, outcome — for every package.

End with one clear call to action

Tell the reader exactly what to do next.

Add proof as it becomes available

Reviews and measurable outcomes build credibility over time.

LOOKING AHEAD

Validation Plan & Next Steps

KNOWN GAPS

Final package pricing still needs mentor confirmation, and packages need to be checked against what ThuWork can realistically deliver.

IF WE HAD MORE TIME

Interview prospective customers

Anchor pricing to current spend

Test 3 tiers vs. 4 tiers

Validation Plan & Next Steps - Survey

ThuWork Customer Survey

Thank you for taking a few minutes to complete this survey. Your answers will help ThuWork improve its AI services and pricing.

1. What is the biggest challenge your business currently faces?

- Repetitive/manual tasks
- Slow customer response times
- Finding and managing leads
- Managing business data
- Scaling the business
- Other: _____

2. How interested would you be in using AI to improve your business?

- Very interested
- Somewhat interested
- Not interested
- Not sure

3. Which service would be most useful to your business?

- Automating repetitive tasks
- Improving sales and lead management
- Improving customer service
- Connecting and improving multiple business systems
- Ongoing AI support and optimization

4. Which result would matter most to you?

- Saving employee time
- Lowering costs
- Increasing sales
- Improving customer response times
- Making the business easier to scale

5. How easy are these service packages to understand?

- Very easy
- Somewhat easy
- Somewhat confusing
- Very confusing

6. Would you prefer to see 3 larger service packages or 4 more specific service packages?

- 3 packages
- 4 packages
- No preference

7. How much would your business be willing to spend on an AI project that saves time/improves operations?

- Under \$1,500
- \$1,500–\$4,000
- \$4,001–\$10,000
- More than \$10,000
- Not sure

8. How much does your business currently spend on similar software, consulting, or automation services?

- \$0
- Under \$1,500
- \$1,500–\$4,000
- \$4,001–\$10,000
- More than \$10,000

9. What would make you more likely to purchase an AI service from ThuWork?

Short answer: _____

ThuWork AI Consultancy Customer Survey

Thank you for taking a few minutes to complete this survey. Your answers will help ThuWork improve its AI services and pricing.
